

Safety First

Powder Fire Extinguisher P 12 M

■ Main advantages of the P 12 M

- Immediately ready for use after opening the CO₂ propellant bottle.
- Rotatable and stoppable extinguishing pistol for ideal fire fighting.
- Top quality pressure propellant vessels made of high strength steel

■ Details and performance features of the P 12 M

- External weather-resistant and durable coating 100% polyester resin coating (free of heavy metals) for long service life
- External TÜV-tested CO₂ propellant bottle with safety burst disc device
- Metal valve with integrated safety valve
- With metal fire applicator
- Filled with a special powder to extinguish metal fires, suitable for class D fires
- Stable plastic carrying handle
- Areas of application: 

Carrying handle

Type	Art.-No.	Extinguishing agent	Model	Propellant	Performance LE*	Discharge time/-range	Temperature range	Total weight	H/W/D in bracket ø - cylinder
P 12 M	800671.1611	D powder	PM 12 H	CO ₂	D	Streuw. ca. 35 Sec.	-20 °C to +60 °C	21,0 kg	860/370/190 mm ø 190 mm

* Extinguishing agent units. If fire extinguishers are intended for both fire classes A+B, the lower LE value applies for the calculation.
